AMERICANS DRIVE FORWARD WINNING VICTORY OPPOSED BY PRUSSIAN GUARDS AND BAVARIANS

YANKS PRESS FORWARD THRU DEADLY BARRAGE

Gain Less Than Two Miles, But Success Considered a Brilliant Operation Against Doughty Foe

APEX OF ALLIED FRONT

Sacrifices Made By Prussian Guards and Bavarians Prove Futile in Face of Fierce Charge of Americans From Middle and Eastern States

With the American Army on the Aisne-Marne Front, July 30.—(By the Associated Press).—Through a barrage as deadly as the Germans have laid down on any sector for months, the American soldiers, comprising men from the middle west and eastern states, pushed their line forward a little more today, and tonight it forms the apex of the Allied front.

Their progress was considerable, though less than two miles, but it is regarded as a brilliant operation, in view of the determined counter attack by the Germans.

On either side the French also moved forward, while steady pressure was maintained against the east and west flanks. Information early in the day indicated the withdrawal of the Fourth Guards, but it developed that the renowned division and the Bavarians were still on the front, and the strong opposition they offered justified their reputation. But their sacrifices were in vain.

The Americans withstood two heavy attacks during the night, and at daylight began their operation, which left them tonight well to the north of Serigny, on the long slope approaching the heavy wood beyond Nesselles, a little town directly east of Serignes-et-Nesselles, whose retention the Germans bitterly opposed. The east end of the line swings northwesterly opposite this point and then drops off sharply in the direction of Cierges and Roncheres. The Ourcq river has been left far behind, the line being pushed forward across the zone to the northwest. The Germans are holding positions in Nesselles forest, from which their guns are shelling ineffectively.

It was late in the day before the whole of Serignes was clear. The Germans clung to the northern part of the town tenaciously and used their machine guns murderously.

Neither side used artillery in this particular battle. There was hand to hand fighting in the streets, in which the Americans proved the masters, driving the enemy before them.

The story of the fight for the possession of Meurey farm, lying directly south of Serignes, will long be remembered in the history of the division. The Germans, on their withdrawal, left behind a strong force of machine gunners and infantry. The Americans moved forward through the yellow wheat fields, which were sprayed and torn by bullets. But they advanced as though out on a drill ground.

The American guns laid down a heavy artillery fire, but notwithstanding this many of the Germans remained, and it came to hand to hand fighting. In a group of farm buildings the enemy had set up a strong defense. There the Germans stuck to their guns, and the Americans rushed at them and killed the gunners at their posts.

It was a little battle without mercy, and typical of similar engagements occurring along the whole front. The Prussian Guards and Bavarians everywhere fought in accordance with their training, discipline and traditions, but were outwitted and outfought.

To the north of the Farm up the long slopes leading to the woods, the Americans met the stiffest exhibition of German valiance. The Germans laid down a barrage which was as heavy as has ever been employed. The American guns replied heavily. The order for the advance came and the line moved forward across the grain field and directly through the barrage. On a nearby hillside the chief staff watched the operation. They saw shell fall in some places leaving long gaps in the line, but the troops never halted. On through the barrage the Americans went into the German positions attacking viciously the machine guns and infantry detachments. The barrage died away, the Germans leaving the work of resistance to men they had failed to protect with their heavy guns.

"The Germans were mopped up" and the Americans held their new line just east of the forest. Not many prisoners were taken, but here and there a few rounded up were brought in. Sergeant Louis Loetz of Sioux City, Texas, contributed 14, he attacked 15 Germans who had been separated from their command, killing four of them and capturing the rest. Awful execution was done by the Americans. Eight captured guards said they were all that remained of a company of 50; yesterday their numbers had been reduced 36. Today all were killed with the exception of a lieutenant and themselves.

SPANISH STEAMER SUNK PRISONERS PLACED ON BORDER

Paris, France, July 30.—A dispatch to the Havas Agency from Madrid says that the Spanish newspapers assert that the torpedoing of the Spanish steamer Ramon de Larrinaga is the gravest incident that has occurred since the beginning of the war. Eight Spaniards perished in the disaster, and the petroleum which the ship carried, together with that burned aboard the Spanish trawler Serantes in New York harbor, constituted almost the entire stock assured to Spain under the Spanish-American agreement.

The above dispatch is the first indication that the Spanish steamer Ramon de Larrinaga had been sunk, amidst

CUBAN SUGAR TO COST UNITED STATES MORE

Advance of a Cent a Pound At Least Indicated to Meet Increased Costs

New York, July 30.—The price to be paid in the United States for Cuban sugar next year has been referred to representatives of the two governments for determination at a conference of American and Cuban sugar interests to be held in Washington next week, according to a statement issued here today by George M. Rolph, chairman of the International Sugar committee. While the International Sugar committee recognized the need of meeting the increased cost of production in Cuba, shown in a brief filed with the committee by Cuban representatives to amount to more than one-half a cent a pound, Mr. Rolph's statement said that "on account of the divergency of views of the members of the Cuban mission from the views of the International Sugar committee as to the price, it was decided to refer the question to both governments in the hope that an early and mutually satisfactory adjustment of prices may be made."

The statement goes on: "The prospective increased cost in Cuba of producing the crop of 1919, however, as outlined by the Cuban mission will mean the addition to the price of sugar in the United States of a full cent a pound, based on the previous Cuban contract now in effect."

ALLIED EMBASSIES REACH KANDALASKA

Warned They Were in Danger As Vologda Was to Be Bombarded

(By the Associated Press).

Kandalaska, Russian Lapland, July 30.—The Allied embassies, which recently left Vologda for Archangel, were not permitted to remain in Archangel and have arrived in Kandalaska. The embassies left Vologda July 28 in response to a message of M. Tchitcherine, Bolshevik Foreign Minister, declaring that they were in great danger and that a bombardment of Vologda was threatened for the next day. He urged the embassies to come to Moscow, but the ambassadors decided to proceed to Archangel where they expected to communicate with their governments.

At Archangel the Soviet, acting under orders from Moscow, refused to permit the foreign ministers to remain, but placed two former Russian ships at their disposal, and abroad these they left July 28, escorted by a Russian trawler on an uneventful voyage across the White sea. On the night they were leaving Archangel it was reported the Moscow government had ordered that the sailing of the ambassadors be prevented.

ALLIED FOOD COUNCIL

Perfecting at London With Emphasis Upon Need of Economy.

London, England, July 30.—The conference in London between Food controllers of the United Kingdom, United States and Italy, is continuing its labors. Meetings are being held almost daily and it is expected that the controllers will conclude their discussions by the end of the week.

Satisfactory progress has been made and the establishment of an inter-allied food council, composed of the controllers is now an accomplished fact. A resolution adopted today emphasizes the need of economy and the elimination of waste as well as increased production in order to build up the stock and insure against all possibilities. It concludes:

"We cannot estimate the food problems on the basis of one year's want. We must prepare for long continuance if we are to insure absolute victory."

PROFITS SURPASS ALL RECORDS

New York, July 30.—Profits in excess of all previous records were made by the United States Steel corporation for the second quarter of 1918, according to the financial statement issued after a two days meeting of directors. Total earnings amounted to \$62,557,391 after setting aside \$40,716,259 or about 65% of returns on account of federal income and war taxes, and a nominal sum for interest on bonds of subsidiary companies.

MORE LOANS TO ALLIES

Washington, D. C., July 30.—Loans to the Allies totaling \$112,000,000 were announced today by the treasury department. France received \$10,000,000, Belgium \$4,000,000 and Serbia \$2,000,000. This brought the total of the loan to the Allies to \$6,492,040,000.

RUSH INTO FIGHT MOST RECKLESSLY

Said of Americans on the Aisne-Marne Front By German Writer

PILES OF AMERICAN DEAD

Said to Resemble Russian Corps on Field in Brusseloff's Offensive

Amsterdam, Holland, July 30.—The Berlin Zerstorer correspondent at the front telegraphs under date of July 27: "In the battle between the Aisne and the Marne the enemy for the first time threw American forces into the firing line. As a result of personal inquiries by Generals Von Ezel and Von Watter on the center of the German front, I am able to state the following:

"The Americans fought partly in serious divisions, partly in co-operation with the French forces. Of the regiments now in the battle most have been over a year in France; the others were only superficially trained in America and on the continent. Their equipment is excellent throughout."

"The new American army, like the French, has another negro division, but these have not as yet been thrown into the battle."

"Among the American prisoners a surprisingly large percentage bear German names. They say that men of German descent are prominent among the American army leaders."

"The consensus of opinion of our front troops is that the fighting mettle of the American soldiers should be in no wise underrated, both for their superiority and high spirits, owing to the wholesome flattery of the French people, they rushed into the fight with brave recklessness, but as they have not as yet learned to fight in extended order and how to protect themselves skilfully, their losses are immensely heavier than the others."

"The piles of American dead, for instance fronting the Monthiers Hill, is only comparable with the Russian corpses strewn on the field at the time of Brusseloff's offensive."

TENTATIVE PLANS TO DISTRIBUTE LABOR

Federal Regulation Forbids Private Recruiting After August 1st

New York, July 30.—Tentative plans for the distribution of labor under the Federal regulation, which forbids the private recruiting of labor by employers after August 1, were outlined at a meeting of leading employers here today by Henry Z. Sargent, state director of labor employment. They included the formation of 14 community boards which will distribute the available supply of male workmen and a general board to which appeal can be made, although final jurisdiction will rest with the Secretary of Labor in Washington. Mr. Sargent said the appeal board had already been appointed, with himself representing the government as chairman. The other members are Louis B. Schram of New York and J. F. Hutchings of Rochester, for the employers, and James P. Holland, President of the State Federation of Labor, and Thomas M. Gaffney, President of the Central Federated union of Syracuse, for labor.

The plans, Mr. Sargent said, had been worked out by the State Organization Board. It did not meet with the approval of Mark A. Daly, General Secretary of the Associated Manufacturers and Merchants of New York, who declared that while every one of the 1,400 members was ready to help the director in his work, they felt they ought to be represented on the Appeal Board. He thought the board should be increased by two.

RELIGION OF HIS OWN

Chap Refusing to Do Military Duty Has Sentence Reduced.

Camp Dix, New Jersey, July 30.—Private Earl S. Robinson of New York, a "conscientious objector," who recently was characterized by a special appeal board as having a "religion of his own," today had his sentence of life imprisonment reduced by Major General Hugh L. Scott to 2 1/2 years at hard labor at Fort Jari, N. Y. He will forfeit all pay and mail, will be dishonorably discharged from the army. Robinson, whose mother is said to be wealthy, gave his occupation as a farm hand. He was not exempted, but when he arrived at camp, he refused to perform military duty, don a uniform or obey orders.

MORE STEEL THE CRY OF SHIPPING BOARD

Asks For Increase of 80,000 Tons Monthly For Three Months

Washington, D. C., July 30.—Steel requirements of the shipping board for the next three months call for 1,000,000 tons, an increase of 250,000 tons over the regular monthly schedule for that period. This increase is desired so as to provide a reserve of 1,320,000 tons for November.

The requirements, it was learned tonight, were placed before the steel manufacturers by Director General Schwab of the Emergency Fleet corporation at a meeting held yesterday in New York.

The reserve stock is regarded by Mr. Schwab as a stimulus to production and plans have been made to keep it intact. An allocation of the present reserves of 1,050,000 tons is fairly good, according to Shipping Board officials, although several Pacific coast shops are still in need of steel. The schedule to the Shipping Board calls for the delivery of 70,000 tons monthly, but it is said that negotiations have been made by Mr. Schwab that deliveries during August, September and October be increased approximately 50,000 tons monthly. This increase, it is believed, will provide a reserve supply to ship building yards, that will act as an incentive to workmen in turning out tonnage.

BATTLE'S NEW PHASE SEEN IN WASHINGTON

New Crisis Indicated By the Increased Fury of the Fighting

Washington, D. C., July 30.—The second battle of the Marne has entered a new phase. Both French and German official statements tonight reflected the increased fury of the fighting for several days past, and indicated to officials here that a new crisis is approaching. The decision cannot be long delayed, although relatively small changes in the battle line were noted tonight.

It was not clear whether the enemy had reached a line on which he purposes to halt his withdrawal. The trend of this present front along the irregular line that now forms the bottom of the Aisne-Marne salient, was regarded by most observers as not representing positions of such major importance as would lend themselves to a determined effort to bring the Anglo-French-American forces to a halt.

The intensity of the struggle and the vigor with which the German troops have been hurled forward in local counter attacks showed conclusively the importance the German high command attaches to holding fast for the moment at least.

JAPANESE STEAMSHIP ASHORE

Grounds on Pacific Coast in Fog — Passengers Still Ashore.

A Pacific Port, July 30.—The Osaka Shosen Kaisha steamer, Canada Maru, which went ashore near here about 9 a. m., is reported to be in no immediate danger, though hard ground. It is as yet unknown as to how badly the vessel has been damaged. But a report received here says it is believed she can be floated. The passengers are still on the steamer, it is said, and the steamer San Juan is standing by. The United States coast guard steamer Snokhomish, Canadian patrol steamer Galiano and Canadian salvage tug Savor, are reported en route to the Canada Maru's assistance and are due here this evening.

The Canada Maru has a cargo said to be worth \$4,000,000, including \$2,000,000 worth of silk.

PLEADS NOT GUILTY

New York, July 30.—The Western Union Telegraph company pleaded not guilty in the federal court here Tuesday to indictments brought last week charging it with violation of the criminal statutes which forbid the establishment of private express service and the transmission of mail in competition with the government. The company was given one week in which to demur or otherwise alter its plea.

ALLIES THROWN BACK

Berlin, Germany, via London, England, July 30.—The German official communication today dealing with the fighting north of the Ourcq and southwest of Rheims Monday, says that Allied forces, including French, British and Americans, attacked in strength, but were thrown back with the heaviest losses over the entire battle front.

HUNS END RETREAT AND OFFER BATTLE

Allies Have Offensive on Entire Soissons-Rheims Salient and Make Notable Gains

ALLIES ARE FORCED BACK

Germans Still Menaced By Possibility of Pincers Movement That Would Threaten the Army of the Crown Prince

(By the Associated Press.)

American troops fighting north of the Ourcq river in the Soissons-Rheims salient have enlarged their brilliant victory of Monday at Serigny, where they cut to pieces the division of Germanic picked troops and took and held the village against counter-attacks, notwithstanding continued opposition by guns and machine guns and large numbers of the enemy. Soldiers from the middle western and eastern states drove their line northward from Serigny Tuesday for a distance of about two miles and were resting at night on the slope approaching the wood beyond the town of Nesselles. Where they stood at last accounts, the Americans formed their apex of the long line running across the salient.

While the fierce fighting was in progress between the Americans and the Germans, the French troops on both sides of the fighting front also moved forward for goodly gains northeast of Fere-en-Tardenois and east of Serigny.

In the Nesselles forest the Germans are holding strong positions from which they are shelling, but thus far ineffectively, the menacing Allied line before them. Prussian guards and Bavarians were in the thick of the fighting throughout Tuesday, but again they were outmaneuvered and outfought by the Americans and again suffered heavy casualties.

The Germans apparently are on the eve of attempting to end their retreat from the Soissons-Rheims salient and turning and offering frontal battle in force to the Entente Allied armies.

The day of rear guard actions seems drawing to a close. Violent counter-offensive measures against their antagonists already are in progress by the Germans over most of the battle front, and seemingly, for the present at least, the Allied advance has been materially slowed down.

Further gains have been made by the Allies including the Americans, but only after the bitterest kind of fighting. And these gains have been considerably less in extent than those of previous days before the Germans stiffened their retreating armies by rushing numerous fresh divisions to their aid and adding greatly to the aggregate strength of their fighting force within the fast disappearing pocket, between Soissons and Rheims.

As a result of violent counter-attacks delivered with huge effectives, the Germans have been able to force the falling back of the Americans and French on several positions, but nowhere were they able to find a spot weak enough through which they could penetrate the Allied line. Standing firmly and giving ground only under absolute necessity, the Allied troops everywhere have exacted a huge toll in men killed, wounded or made prisoners, from the Germans in their every attempt partly to retrieve their losses of ground.

Particularly heavy has been the fighting in the center of the salient and on the right and left anchor points of the salient resting respectively southwest of Rheims and south of Soissons. That the Germans are keeping a most watchful eye, fearful that the Allied troops may yet press back the line and threaten the armies of the Crown Prince, with the pincers maneuvers, for the Germans are not far enough out of the pocket to have passed the danger of such a contingency.

In the center of the pocket, north of the Ourcq river, the Germans in a counter-attack drove the Americans out of Ciergas, but this slight gain was more than overcome later by the penetration by the Americans northward from Serigny. Beugnot, lying on the west side of the pocket northwest of Fere-en-Tardenois also was taken by the Germans, but later the French and the Americans recaptured it and with Grand Rosoy in their possession, they still hold vantage points for a small turning movement toward Fere, which, if successful, would give them a goodly number of prisoners.

Southwest of Rheims the Germans delivered a violent attack against the French from both sides of St. Euphrasie. Their efforts to capture the village, however, were futile, though they pushed their line slightly forward in the west side of it.

Southwest of Ypres, the Australian troops are keeping up their attacks against the Germans and have captured the town of Merris and with it 169 prisoners and a number of trench mortars and machine guns. The Germans at last reports are heavily bombarding the new positions of the British.

ARMY CAPTAIN INDICTED

New York, July 30.—Aubrey W. Vaughan, a captain in the quarter-master's corps of the United States army, was indicted today by a Federal grand jury on a charge of conspiring to defraud the government in connection with contracts for raincoats. Indicted also were Felix Gould, a manufacturer, who was arrested last week with nearly a score of others in connection with the government inquiry into alleged frauds in contracts; a small hospital at the American base.

MORE AMERICANS IN ITALY

(By the Associated Press.)

With the Italian Army Headquarters in Northern Italy, July 30.—American troops continue to arrive. They are in excellent condition and in splendid spirit and enthusiasm to them. Nothing has been left undone by the Italians to show the Americans how much their appearance in Italy is appreciated. The American Red Cross has established a small hospital at the American base.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD IN 1918

Practically a Daily at the Price of a Weekly. No other Newspaper in the World Gives so Much at so Low a Price.

The value and need of a newspaper in the household was never greater than at the present time. We have been forced to enter the great world war, and a large army of ours is already in France. You will want to have all the news from our troops on European battlefields, and 1918 promises to be the most momentous year in the history of our universe.

No other newspaper at so small a price will furnish such prompt and accurate news of these world-shaking events. It is not necessary to say more.

The Thrice-a-Week World's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and The Daily Star together for one year for \$4.50.

The regular subscription price of the two papers is \$5.60.

Three Months' subscription to The Star for \$1.60.

USE FAT CARDS IN SWITZERLAND

They Have Been Added to a Long List of Food-Saving Measures.

MANY COMPLAINTS MADE

People Urged to Use Peanuts and Fruit Stones as Substitutes—Planting of Sunflowers Along Roads Recommended.

Zurich.—Neutral countries are now feeling the scarcity of articles of food and are compelled to adopt rationing measures, thus following the footsteps of belligerent countries. Switzerland is adding to the bread card, meat card, coal card, etc., a new saving device—the fat card. Commenting on the impending innovation the Neue Zürcher Zeitung says:

"Of course the coming of the fat card is greeted with a general chorus of howling and cursing. The bread card received the same sort of welcome. However, systematic rationing of all our food is only to be welcomed when you consider the necessity of justly and equally feeding a whole people."

"It is the only way to make possible a fair distribution and it is the only way to suppress mean egotism. The fat portion prescribed by our government is sufficient for these extraordinary times of general food shortage. But even in peace times the housewife could hardly use 500 grammes a month for each person."

Wholesome Lesson.
"It does no harm at all if we are somewhat restrained in the use of fats. It will be a wholesome lesson to many of us. Some people were in the habit of wasting fat in shameful manner. It belonged to the requirements of an elegant kitchen to soak everything in fat. It became customary to trim the fat off boiled and roasted meat and even off ham and leave it on the plate. And then fat such as butter was added to meat and eggs, which contain enough fat of their own. Here the cooks squander a lot of fat because it is the easiest way."

"Some restriction and a little more thoughtfulness in preparing dishes will harm nobody. Overanxious people are howling about starving. They forget that the poor who form a very numerous part of our population always had to economize in the use of fats. Besides, man can get along without fat for a time. For most of our foods contain fat in another form. A shortage of fat might become serious if we had no substitutes, such as cornstarch and sugar. Every ounce of fat can be replaced by two ounces of starch."

"Of course weather and climate affect the amount of fats required by the human body. A person working hard during cold weather needs more fats than otherwise. As a whole, though, man is able to adapt himself, and his craving for fats is more a matter of habit than of necessity. In the kitchen butter should be displaced by oils. Oil is cheaper and well answers all purposes in frying and baking."

Peanuts as Substitutes.
"Peanuts may be used as a substitute for fat in the preparation of many dishes. All kernels and stones of fruit should be collected for the production of oil. A kilogram of cherry stones will yield 720 grammes of shells and 250 grammes of inner kernels. The latter will yield 67 grammes of oil."

"Peach and plum stones may be treated similarly and will give the same results. Even the pits of apples, pears and oranges can be made to produce oil. Pumpkins, too, contain a wealth of oil. Mostly all of these oil-yielding particles are thrown away as useless."

"Children should be taught to pick them up and collect them. Deposits should be established where the children—and others too—can turn in their collections. The rising generation must become imbued with the desire to serve their country. Planting of sunflowers along roads, walks and railroad tracks must be encouraged."

"If all this is done systematically and faithfully the present shortage of fat will mean nothing to our people. It may be felt as an annoyance in the kitchen and the palate may miss something, but it will not cause any malnutrition of the people."

Smith Centre, Kan.—Rev. F. M. Rice of this city has a hen that has established what is believed to be a record of the maximum in production. She began to lay an egg a day in February and in April went to setting. Despite setting, she continued to lay and even afterwards when raising and mothering her brood. She did not cease laying eggs until she set for the second time late in June.

BRAZIL LOOKING TO FUTURE

Important Industries of the Country Are to Be Encouraged by the Government.

The secretary of agriculture of Brazil recently presented a lengthy memorial to the president of the republic explaining the necessity of encouraging the coal and steel industries, which has resulted in the publication of two decrees of the federal government.

The secretary's report states that until there are at least ten coal mines in active operation in the country the effect of this industry will not be felt in the conservation of the wood supply, which is now being rapidly consumed to meet the needs of the railways and of domestic industries. The steel industry is so largely dependent upon suitable fuel that, in the secretary's opinion, it should also receive the attention of the Brazilian government. The director of the geological survey of the Brazilian government states that by a process of washing metallurgical coke may be obtained from Brazilian coal, and that this is already being accomplished in the state of Santa Catharina.

The secretary points out that the present lack of sufficient domestic coal of suitable quality should not interfere with the establishment of a steel industry, which could temporarily use wood, and that for more than 300 years Sweden was obliged to depend upon this kind of fuel. He also says that in the United States some 400,000 tons of pig iron are produced annually by the use of charcoal as a fuel.—Commerce Reports.

When a Prisoner Is Exchanged.
Iran Rossiter, captured by the Germans and later exchanged, says in the Farm and Fireside: "Then I lay down, not to sleep but to think. I thought of the day when I enlisted in Canada, of leaving home, the training camps, the trip overseas to England, the training in England, going across the channel to Flanders, the terrific fighting at Ypres, of the many friends who fell on that bloody battlefield, how I was wounded and captured, the inhuman treatment I received at the hands of the German surgeons, who had four husky Germans hold me down while they cut five bones out of my wrist and amputated my middle finger at the second joint when I was wounded in the palm of the hand, the kicks and the cuffs from prison guards and the terrible stuff the Germans called food in the prison camps."

ALLEGES RYAN IS UNPatriotic

District Attorney Lee of Norwich Creates Sensation in Politics.

Norwich, July 30.—District Attorney David F. Lee has attempted to dethrone the present Democratic county chairman, Stephen Ryan, and he has absolutely repudiated him. The district attorney has written a caustic letter to every member of the Democratic committee in Chenango county, and to most if not all of the enrolled Democrats, exposing the position Mr. Ryan has taken on all patriotic moves of the community, the state and nation. The announcement has created quite a sensation in this county. Mr. Ryan has for years been the Democratic leader and he now holds a "fat" federal position in New York city.

An effort was made to get in touch with H. W. Clark, chairman of the Chenango county Red Cross. It is understood that the members are greatly incensed at the utterances of Mr. Ryan and that charges have been filed against him by that organization. An interview will be sought with Chairman Clark as soon as he returns to the city.

20 % CASH DISCOUNT SALE

On Everything at Pudney's Music Stores.

Special Bargain—\$1,200 Steinway Parlor Grand piano, \$900 Starr Parlor Grand piano, call or write B. E. Pudney, Sidney, N. Y. Hen Establishes Record.
Smith Centre, Kan.—Rev. F. M. Rice of this city has a hen that has established what is believed to be a record of the maximum in production. She began to lay an egg a day in February and in April went to setting. Despite setting, she continued to lay and even afterwards when raising and mothering her brood. She did not cease laying eggs until she set for the second time late in June.

BASEBALL RESULTS

NATIONAL LEAGUE

All National league games postponed. Rain or wet grounds.

AMERICAN LEAGUE

INDIAN SCALP ATHLETICS.

Take Double Header from Philadelphia, plus 4 to 2 and 5 to 1.

Cleveland, Ohio, July 30. — Philadelphia today lost a double header to Cleveland, 4 to 2 and 5 to 1. Score:

First game. P. H. E.
Philadelphia 0 100 0 000—2 5 0
Cleveland 1 000 0 201X—4 8 1

Batteries — Greer and Perkins; Bagby and O'Neill.

Second game. P. H. E.
Philadelphia 0 100 0 000—1 5 2
Cleveland 0 000 2 001X—5 10 0

Batteries — Watson and McAvoy; Enzman and O'Neill.

SENATORS SWAMP WHITE SOX.

Take Hard Fought Game in Ninth. When Cicotte Weakens, 3 to 0.

Chicago, Ill. July 30. — A ninth inning rally today gave Washington a 3 to 0 victory over Chicago. Cicotte weakened in the last inning. Shotton's batting was a feature. Score:

Washington 0 000 0 000 3—3 7 1
Chicago 0 000 0 000 0—0 2 0

Batteries — Shaw and Ainsmith; Cicotte and Schalk.

GREAT STICK WORK BY COBB.

And Boland's Pitching. Enable Tigers to Shut Out New York 3 to 0.

Detroit, Mich., July 30. — Two extra base hits by Cobb and Boland's ef-

fective pitching enabled Detroit to win from New York. Cobb doubled with two men on bases in the sixth and tripled in the eighth with a man on third. Score:

New York 0 000 0 000 0—0 4 3
Detroit 0 000 0 000 1X—3 6 1

Batteries — Loe, Robinson and Walters; Hannah, Boland and Stan-

age.

BROWNS HAND GAME TO BOSTON.

Red Sox Romp Away With Five St. Louis Pitchers—Take Game, 11 to 4.

St. Louis, Mo., July 30. — Jones proved better than five St. Louis pitchers today and Boston won 11 to 4. Score:

Boston 1 020 203 200—11 11 4
St. Louis 0 010 012 00—4 6 1

Batteries — Jones and Agnew; Dennis, Rogers, Loderwick, Davenport, Houch and Severoid.

At Toronto 1 6 0
Jersey City 3 9 2

Second game. P. H. E.

At Toronto 4 6 2
Jersey City 2 6 0

At Syracuse-Baltimore, postponed, rain.

FINANCIAL AND COMMERCIAL

The New York Markets.

New York, July 30.—Interest in the stock market was more professional, if anything, than usual today.

Trade engaging in fresh commitment on the short side, because of the adverse crop reports and the uncertainty of the stability of the United States steel extra dividend.

All doubt regarding the matter proved unfounded, although the result was not known until after the markets closed, when the record earnings and enormous appropriations for Federal income and War excess profits were issued.

U. S. steel, according to its usual custom, supplied an overwhelming percentage of the day's business, making an extreme technique of 2 1/2 points the last hour and closing at a net loss of 3/4 of a point.

The balance of the list was guided by Steel's irregular course, with occasional exception, notably in the group of Gas shares, which gained 2 to 3 1/2 points on a favorable legal ruling.

The average of prices was lower in the last hour, the day's only active period, but leaders rallied fractionally to a point.

Bonds were steady, but featureless, aside from further nominal advances in the international group.

Old United States bonds were unchanged on call.

AIR RAIDS ONLY BORE LONDONERS

They Watch the Weather and Draw the Blinds But Refuse to Be Panic-Stricken.

MANY DON'T SEEK SHELTER

Busses and Subway Trains Operate as Usual and Club Men Sit Calmly Under Glass Roofs—Only the Foreign Element Frightened.

By FLOYD MACGRIFF.

London.—The thick London fog, often referred to in America, is one of the British capital's chief protections from air raids by the Huns. If it is a foggy or misty night the searchlights of Zeppelins cannot reach their long fingers of light to the earth and pick out the English coast or find their way to London. Airplanes, likewise are baffled. So a thick fog gives a sense of security and one buys a ticket to a theater with far more cheerfulness than on a moonlight night when the air is clear.

The weather has attained a new sphere as a topic of conversation. One Londoner may greet another with: "Well, it looks like a good night for a raid," if the evening is fair. More than a hundred bombings have taught the Londoner to expect a raid on such nights. He considers it lucky if none occurs.

"Blinds must be drawn at 9:30 p. m. today," runs a line in the daily papers. As summer approaches the hour is made later, to correspond with dusk. And the blinds are drawn. Hotel maids are instructed to attend to this promptly. Hotels also have placards warning guests that police will hold them responsible if a light shows from their window.

Busses Operate as Usual.

All London does not take to cover when an air raid is on. During a recent raid, when bombs were being dropped and bits of shrapnel fell full-sun, the auto busses, with their woman conductors, operated as usual. And there were passengers. Britishers do not regard the air raids with fear. People in the street get under cover, if it is handy, so as not to be hit by falling shrapnel. But they do not dash madly to shelter or push or jam their way into safety in the underground railway stations. The subway trains are operated as usual. Only the foreign element, largely employed in munition factories, has become frightened. Many of these have moved into safety zones.

As an instance of air-raid boredom a British officer on leave, was on his way to his hotel room when the warning to take cover was sounded. "What are you going to do?" he was asked. "Do?" he echoed. "Hell, I'm going to bed!" During the same raid the musicians in a hotel which fronts the Thames and is well known in America played on as usual and the cafe crowd did not know there was a raid until the "all clear" was sounded.

Club Men Talk Calmly.

But the booming of heavy guns in and around the city generally reaches most ears. A crowd of men sat in a smoking room at one club, with a glass roof above, and talked of one thing and another during the raid. Seeking shelter in a subway would appear as impossible to them as going down Broadway barefooted. Only a very small proportion of London can be accommodated in the subways. The crowding of public buildings during raids has been discouraged, because it is realized that very few of them can withstand the heavy bombs. Residents now are officially advised to stay at home during raids and take their chances, which are about one in 400,000.

Despite more than 100 raids on London one has to hunt for any evidence of damage, although scores have been killed and wounded. Houses which have been demolished are in widely scattered districts, London being a city which is sprawled over considerable territory with low buildings. Business houses, public structures and factories show no evidence of attack. But houses which have been bombed are so much mortar and dust, even houses that were four stories high.

Spirit of the Trenches Prevails.

The spirit of the trenches, which makes men face death bravely, is the spirit of London during a Hun attack. Mothers are the most nervous, and many babies have been taken into the cold night air, during a raid, too thinly clad, each mother believing she was doing the best thing by going to a subway. And these babies have died from the exposure.

But there are many overbalancing cases of bravery. The bishop of London is authority for the story that one girl, aged seven and one-half years, who was alone during a Gotha raid, aroused her four younger brothers and sisters, brought them downstairs, placed them about a table and was reading a Bible when her mother, a widow employed as a tram conductor, returned in panic, fearing for her little ones.

Chicks Hatched by Steam.

Pittsburgh, Pa.—Believing they could hatch chickens without the use of a hen or incubator, pumpmen in a Shamokin, Pa., colliery placed 18 eggs in a cask-filled box beneath the even-temperated steam pipes. Twelve chickens was the result.

CARRY FOOD TO TRENCHES

French Employ Canine Couriers to Take Supplies to the Men in Most Exposed Positions.

Trench warfare certainly interferes with the fighter's meals. After capturing the enemy's position in particular, is the fighter at a loss to know how he will get his regular rations; for no sooner does the enemy find himself dispossessed of his original trenches than he opens up with an intense barrage fire designed to prevent ammunition and food from reaching the new occupants.

The French army believes it has solved the problem of carrying food to men in isolated trenches, in its latest dogs, says the Scientific American.

Carrying light lunches and coffee, and even cartridges for the men in the first line trenches when the combat is hot and protracted these splendid trained dogs are more certain to get through barbed wire than men. Each dog is equipped with a sort of double bag, strapped tight over its body, and provided with numerous pockets for food, coffee cans, ammunition and other supplies.

It is at the military dog-training grounds at Paris that dogs are prepared for this service. Not only are these four-legged couriers taught to avoid the enemy and beware of tricks, but also to crawl on their stomachs in order to escape flying bullets. Special masks are provided for these dogs when they must pass through a poison gas area.

Reassuring Thought.

One of our eminent biologists announces that one pair of rats, if left undisturbed, will multiply to 37,000,000 in two years, but the reassuring reflection is that they almost always seem to be disturbed.—Ohio State Journal.

Bessie's Interpretation.

Little Bess, who is in the second grade, startled her parents by insisting that her teacher was all the time telling her that the school was a fire.

She was so puzzled over this that they visited the school one afternoon to find out what the child meant by such a charge. In a little while the mystery was solved, for the teacher, glancing around the room, called out to the pupils: "Sit erect, sit erect!"

Bessie looked at her mother and blurted out triumphantly: "There, mamma, didn't I tell you?"—New Haven Register.

WASTEFUL LIGHTING IS A HELP TO THE ENEMY.

ONE of the principal reasons for passing the Daylight Savings law was to save coal. All of the gas, except of course natural gas, and a large part of the electricity used for lighting is made from coal and therefore the less artificial light we use the less coal is burned.

You probably haven't forgotten HOW HARD IT WAS TO GET COAL LAST WINTER. It was not only hard for you but it was hard for Uncle Sam to get enough for the ships to take the soldiers to France and for the factories that make the guns, ammunition and supplies that they must have. It is going to be just as bad, if not worse, next winter unless everyone of us does his part to save every lump of coal that he can.

One of the ways we can help is to BE CAREFUL NOT TO WASTE ANY GAS OR ELECTRICITY FOR USELESS LIGHTING. We must always turn out the lights as soon as we are through using them. Then we must not use lights merely for looks or for display. It doesn't seem as if it would make much difference what we do, but one light here and another there soon count up and CARE on the part of all of us will result in saving much more coal than the Daylight Saving scheme.

Then there is another thing that many of us could do that would not only save coal but would at the same time give us more light for the same money. Did you know that THE SAME AMOUNT OF GAS USED IN A MANTLE BURNER WILL GIVE FOUR OR FIVE TIMES AS MUCH LIGHT AS WHEN USED IN A FLAT FLAME BURNER? Did you know that the TUNGSTEN OR MAZDA LAMP USES LESS THAN HALF AS MUCH ELECTRICITY FOR THE SAME AMOUNT OF LIGHT AS THE OLD-FASHIONED CARBON LAMP? The substitution of mantle burners for the open flame gas lights and of the Mazda in place of the carbon electric lamps is real conservation. It saves coal and gives better results for the same money. In other words, it reduces waste.

Only one or two per cent of us can go to France to fight, but we can all of us do our part to make the world a safe place for free people to live in and one of the things we can do which will help a lot is to be careful not to waste light.

COMMITTEE ON FUEL CONSERVATION.

OTSEGO COUNTY NEWS

SCHUYLER LAKE NEWS.

Death of John H. Tice Occurred Monday Afternoon.

Schuyler Lake, July 30.—The many friends of John H. Tice will regret to learn that he passed away at his home in this village Monday at 5 p. m., after only a few days illness of pneumonia. Mr. Tice was a son of Armentus Tice and was born in this town 75 years ago and practically his whole life had been spent in this vicinity. His wife died in February, since which time he has lived alone and been to work almost daily and on Thursday last he was taken with a slight cold, which developed at once into pneumonia and his son, Louis, and wife of Cherry Valley were notified and they came and cared for him. He will be greatly missed in the community for he was a kind neighbor and friend. He was the last of a large family of children and he leaves only the one son mentioned to mourn his death besides several nephews and nieces. The funeral will be held from the house Wednesday. Rev. Charles Kramer will officiate. Interment in family plot in village cemetery.

Death of Mrs. William Pratt.

The death angel has again visited our village. Jessie Mary Smith, beloved wife of William O. Pratt, passed away at her home here this morning at 7 o'clock, after a long lingering illness. She was a daughter of Elmer and Freeborn Rose Smith and was born in Pleasant Valley, September 6, 1872 and her whole life has been spent in this vicinity, where she will be greatly missed by a large circle of friends and neighbors for she always had a smile and kind word for everyone and has been a very patient sufferer during her long illness. She was united in marriage October 19, 1892, to William O. Pratt and two sons blessed this union, Kenneth W. of Richfield Springs and Master Herman, of this village. Mrs. Pratt has been in poor health for several years, but for the past year has gradually failed and has been tenderly cared for by her loved ones. She was a member of the L. O. T. M. of Hartwick and Arbutus chapter, No. 317, O. E. S. of Richfield Springs. She leaves to mourn the death of a kind and loving wife and mother, the husband and sons mentioned and a mother, Mrs. Freeborn Smith, and two sisters, Mrs. John Morris of Gloversville, and Mrs. Lysle Dyer, of this place; also one uncle, George Rose of this village. The sympathy of her host of friends is extended to the bereaved family in this their great loss. The funeral will be held Thursday at 2 p. m. at the Universalist church. Rev. Charles Kramer will officiate. Interment in village cemetery.

MR. VISION VISITS.

Mr. Vision, July 30.—Rev. G. T. Adams and wife will return from their vacation this week. There will be the usual services in the Baptist church next Sunday morning. Sunday evening there will be the union services in the Baptist church. Rev. E. D. Cooke, pastor of the Methodist church, will preach. — Mr. and Mrs. Walter Parcell entertained her father, Andrew Spencer of Hartwick Seminary, and sister and husband, Rev. and Mrs. Stuts of Brooklyn, who are in camp at Arnold's lake, to dinner Thursday. — Mrs. L. W. Sherman spent part of last week with her niece in Cooperstown. — C. S. Stevens and wife motored from Elmira Thursday and visited at the home of his cousin, Mrs. Maria Smith, and cousins at the Stevens home. — Charles Beckley, accompanied by his nephew, Glenn Hall, and wife and niece, Miss Ava Hall, motored to New Berlin Sunday. Mrs. Beckley accompanied them as far as Morris. — Mr. and Mrs. John Salisbury visited Sunday at Hartwick Seminary. — Mr. and Mrs. Walter Parcell went Saturday to Arnold's lake, where they were the guests of Rev. and Mrs. Stuts, who are in camp there, until Sunday night. Mrs. Feldman of Brooklyn accompanied them home. — Mrs. E. D. Cooke went Monday to Binghamton to visit her sister.

MARRIED AT HARTWICK.

Elmer Lake of Oneonta Weds Mrs. Freeborn DeForest.

Hartwick, July 30.—Saturday at 5 p. m., the marriage of Elmer Lake of Oneonta and Mrs. Freeborn DeForest of Hartwick took place at the home of her son, LaFayette DeForest, on Hill street. Rev. Albert Loucks officiated.

Seriously Cut on Mowing Machine.

Monday afternoon Earl Douglass, son of Perry Douglas, of Burlington, was seriously cut by a mowing machine. He and another brother were alone on the farm cutting grass with the machine. He stepped in front of the cut-bar to make some adjustment when the team started and the knives of the mower cut the back of his leg, cutting off the cord one into the bone. Near neighbors were called, also Dr. Schoenbart of this village, who dressed the wound and advised removing him to the hospital, and this was done by ambulance as his parents reached home.

PORTLANDVILLE POINTERS.

Portlandville, July 30.—The Ladies Aid society of the Christian church will serve supper at the church parlors from 5 o'clock until all are served, Friday evening, August 1.—Mrs. Maggie Carr, Mrs. T. E. Evans of Johnson City, Mrs. E. J. Johnson of Oneonta, and friends, also of John C. Carr, were guests on Sunday at son C. Carr's and other friends here. — Mrs. E. VanDerwerker, and son, Harry, who have been spending some time in Cayuga, returned to their home here Sunday. — Mrs. Anita

Packer Clark of Pittsburgh is visiting her parents, E. H. Packer and wife, and grandmother, Mrs. Julia Lyke, for two weeks.—Mrs. Laura Green and friend, Miss Randall, were guests of Mr. and Mrs. Fayette DeLong from Friday until Sunday. — Jack Turner was severely injured by being kicked by a horse, while he was working in the hayfield of McLauri brothers. He was brought to the home of C. D. McLauri, where he has been employed a sawyer in the lumber mills at the railroad station. He is reported as in comfortable condition as could be expected, owing to the seriousness of injury. Dr. Green attends him. — Miss Ethel Aylenworth is visiting at C. Murray's, near Milford, for the week.—Elmer Palmer of Hartwick visited friends here over the Sabbath.

BULLETIN FROM COOPERSTOWN.

Interesting Happenings at County Seat—Birth at Hospital.

Cooperstown, July 30.—Mr. and Mrs. Harry G. VanDeusen are parents of a daughter, born at Thanksgiving hospital, Saturday.

Bird Defenders Organize.

A Bird Defenders society has been formed here and the following officers elected temporarily: President, Mrs. Della T. Jarvis, vice president, Mrs. Kent Jarvis, secretary and treasurer, William H. Doubleday Jr.

Death of Delose VanNort.

Delose VanNort, a highly respected resident of the village, died Saturday night at his home on Eagle street.

DELAWARE COUNTY NEWS

DELIH DAILY DATA.

To Open Community Kitchen at State Agricultural College.

Delhi, July 30.—A community kitchen is to be opened in Delhi two days a week for the remainder of the season at the domestic science building of the State Agricultural school. Any one having meat, fruit or vegetables to be canned may bring them ready in the cans and have them done in a pressure canner, thus saving fuel and time and insuring keeping qualities. A demonstration was held today in the old Academy building and much interest was manifested.

Delhi Locals.

Rev. and Mrs. Charles Waisworth and Miss Dorothy Waisworth are guests of Mrs. J. R. Honeywell for the month of August.—Mrs. Arthur H. Brownell of Oneonta, accompanied by John Hume, who has been visiting his aunt, Mrs. DeProsse in Hudson, arrived here yesterday to help celebrate the eighty-first birthday of William P. Lynch.—Four men were sent this morning by the Local Examination board to the Syracuse training camp for limited service.—Russell Graham started this morning for Lytle, Georgia, where he will be foreman of a construction company in the United States service.—A delightful rain has relieved the parched condition of the earth.—Some 12 men left here for Binghamton this morning, registrants to be examined before the Medical Advisory board.

HOBART HAPPENINGS.

Woman's Home Missionary Society to Meet.

Hobart, July 30.—The Woman's Home Missionary society of the Methodist Episcopal church will hold a meeting in the grove of the church Wednesday afternoon. The ladies of the church are asked to come and bring their Red Cross knittings. At supper time a picnic lunch will be served, to which the men are invited. A free-will offering will be taken.

Ten Cent Tea Announced.

The Ladies' Aid society of the Presbyterian church will hold a ten-cent tea at the home of Mrs. E. G. Hanford on Thursday afternoon.

With Soldier Boys.

Word received from John Shackleton states that he is in camp Sevier, Greenville, S. C.

A telegram received from Sergeant Fred Poole says that he has been transferred from Camp Wadsworth, S. C., to Camp Upton, L. I., and that he expects to sail soon.

Personals.

Mrs. William McGlengen and two daughters, Mary and Alice, and son, Joe, of Newburg are at W. E. Kings. — Gardner S. Hutchinson and a party of friends motored to Delhi Monday. — Miss Nellie G. Ingles of White Plains is a guest at the New Hobart. — Mrs. Schaffer and two children, who had been at F. G. Ingles, have returned to New York.—The picnic of St. Paul's church Sunday school will be held at Odell's lake Thursday.

ALONZO HAYNES DEAD.

East Merckth Veteran Passes Away at Advanced Age.

East Merckth, July 30.—Alonzo Haynes, a veteran of the Civil war, died at his home here Sunday evening, at the age of 81 years and 7 months. Mr. Haynes was ill for many weeks but was able to be about till shortly before his death. He was born in Hayks Falls, Greene county, in December, 1846. During the last three years of the Civil war he served his country with the 5th New York Volunteers. After his return, on May 1, 1865, he was united in marriage to Mary L. Eason of Denning. In 1872 he removed, with his family, to Stamford township and resided there about 33 years. In 1913 he came to East Merckth to spend his declining days. He was over many years a mem-

He is survived by his wife, one daughter, Mrs. Ernest Reed, one son, Charles, two brothers, Richard and Charles; all of this village. The funeral was held Tuesday afternoon in Christ church, and burial made in the burial grounds near the church, which he for half a century has cared for as sexton.

SENT FROM SCHENECTADY.

Schenectady, July 30.—Mrs. Cooper of Newark, N. J., with her son, Theodore, and daughter, Alice, are spending a few weeks at the home of Mr. and Mrs. Samuel Swackhamer. — The Epworth league of the Methodist Episcopal church will hold an ice cream sale on the church lawn Wednesday evening, July 31. All are cordially invited to be present.

Westford Women Voters.

Westford, July 30.—A meeting of the Republican women voters of the town of Westford will be held at the home of Mrs. John Avery Skinner, in the village of Westford, on Saturday evening, August 3, at 8 o'clock, for the purpose of nominating a leader of the Women's Republican forces in town, the said leader to be a member and assist in organizing the Republican Women voters of this county.

Otego Red Cross Notes.

Otego, July 30.—The weekly meeting of the Red Cross will be held at headquarters, Wednesday, July 31, at 2 o'clock. Members of Oneonta chapter expect to make an official visit during the afternoon, and it is urged that there be a good attendance. Heads of departments may ask for information at this time. Books for soldiers may still be given for shipment.

HELPS DAD WIN THE WAR

Newton D. Ester III, eleven-year-old son of the secretary of war, is earning pin money by acting as messenger for his father in the war department. His father pays him for services rendered outside of school hours.

Where Ancients Excelled.

Although tunneling is among the most ancient of enterprises, more progress has been made in the last century than in the twenty centuries which preceded it. It is now known that back in the semimythical days of the Theban kings the long tunnel into the mountain rock, expanding at a distance of 400 feet or so, into some lofty chamber, was a common work. The rock temples of Nubia and India, too, show that in certain matters at any rate moderns may still learn from the ancients.

OHIO COLLEGE GIRL

Overworked, Nervous, Run-down—Health Restored by Vinol.

Cincinnati, Ohio.—"I am attending college, and got into a nervous, run-down condition, no appetite, was weak and exhausted. Vinol has given me a good appetite and built up my strength and health, and I can do anything I like to do now. The reason Vinol was so successful in my case is because it contains the very elements needed to build up a weakened, run-down system, make rich, red blood and create strength." — H. B. Gildersteeve and druggists everywhere.

Saving Fats Does Not Mean Flavorless Foods!

Economy and Better Cooking the Rule in Households Where Mazola is Used

What olive oil is to Italy—Mazola is to America. Pressed from Indian Corn, for sautéing, deep frying, shortening and salad dressings, it is as pure and wholesome as the food it is cooked with or eaten on.

Mazola is a wonderful aid to good cooking because it enables the housewife to serve more delicate pastries, fried and sautéed dishes—and at the same time save animal fats, such as butter, lard, suet.

The same lot of Mazola can be used many times over as it does not carry flavor or odor from one food to another. That is why Mazola is so economical.

And for salad dressings it is perfect—easier to mix than an olive oil dressing.

For sale in pints, quarts, half gallons and gallons. For greater economy buy the large sizes.

There is a valuable Cook-Book for Mazola users. It shows you how to fry, saute, make dressings and sauces more delicious, make light digestible pastry. Should be in every home. Send for it or ask your grocer. FREE.

Corn Products Refining Company

P. O. Box 161 New York

Selling Representatives: FRATT-HARRIS COMPANY Binghamton, N. Y.

LAYER OR LOAF CAKE

1/2 cup Mazola
1 cup sugar
1 egg
1/2 cup milk
1/2 cup flour
1/2 cup butter
1/2 cup shortening
1/2 cup salt
1/2 cup baking powder
1/2 cup vanilla
1/2 cup lemon juice
1/2 cup orange juice
1/2 cup pineapple juice
1/2 cup cherry juice
1/2 cup strawberry juice
1/2 cup raspberry juice
1/2 cup blueberry juice
1/2 cup blackberry juice
1/2 cup elderberry juice
1/2 cup huckleberry juice
1/2 cup mulberry juice
1/2 cup persimmon juice
1/2 cup pomegranate juice
1/2 cup quince juice
1/2 cup rowanberry juice
1/2 cup sea buckthorn juice
1/2 cup speltz juice
1/2 cup sumac juice
1/2 cup tamarind juice
1/2 cup tart cherry juice
1/2 cup tart plum juice
1/2 cup wild blackberry juice
1/2 cup wild cherry juice
1/2 cup wild rose juice
1/2 cup yewberry juice

Cream Mazola and sugar, add beaten yolks, sift flour, baking powder and salt together and add alternately with the milk. When well mixed fold in the stiffly beaten whites and flavoring. Bake in a very hot oven, reduce after two minutes and finish baking slowly. Test center with a tooth pick.

Garage Business in Worcester for Sale.

As I expect soon to enter the service, I am offering for sale my automobile and garage business. This is an excellent location and a good investment, but the above conditions warrant this step. Will make an attractive proposition to the right party. Terms strictly cash. Central Hotel garage, Worcester, Mass. C. Wright Prop., Worcester, Mass.

WAR COST TO THE STATE.

That the war has so far cost the New York state government approximately \$20,000,000 increase without resorting to the issuance of any special war bonds as has been customary in all previous conflicts, is disclosed in State Comptroller Travis' summary of the state finances, made public tonight.

The Comptroller's statement for the last fiscal year ending June 30 also reveals an increase of \$14,441,520.45 in receipts over 1916, with a corresponding net gain of \$2,642,508.16 above all expenditures. It is also gratifying to learn that a cash balance exists of \$9,890,617.48 as against \$7,248,108.32 for last year.

In comparing the total expenditures which show an increase of \$12,511,825.50 over the previous year, the comptroller's report calls attention to the appropriations made for military purposes, including the \$4,000,000 additional required to take care of the state employees who have entered the military service. It also points out an increase of \$1,000,000 required for the new 10 per cent salary allowance for civil service employees and a special maintenance appropriation of \$2,143,294.45 to equip the new battle canal for federal service. In addition to these, the comptroller shows how the increased cost of all commodities used by state institutions and departments and an increase of \$3,500,000 for educational and \$2,200,000 for intensive agricultural purposes has been made.

"The unusual conditions occasioned by the present world-wide conflict," the report reads, "has been met, and the people of the state may well be proud of the results that have been achieved in placing at the disposal of the federal government the most complete and efficiently organized military units the country has yet produced. To equip and maintain the state's contribution to the cause of war has cost millions of dollars, but no patriotic citizen of the great empire state will for a moment question the right and justice of these expenditures."

RED CROSS NOTES.

Important Conference at First Presbyterian Church, Friday, August 9.

There will be a very important Red Cross conference at the Presbyterian church on Friday, August 9. This conference, which will last the entire day, includes Cooperstown, Richfield Springs and Morris. All the members of the Oneonta Red Cross and of its branches are urged to attend.

The main idea of the conference is to familiarize all the people with the different phases of the work that the Red Cross is doing. There will be heart to heart talks where questions may be asked, in order that everything will be clear to the people, concerning the work that the Red Cross is carrying on.

It is hoped that Albert T. Tanblynn may be present to speak, but if he is unable to be present he will send a competent representative.

Lunch will be served to the out-of-town guests by the canteen committee.

Red Cross Bags.

The Red Cross bags that are being carried by most every knitter in Oneonta have proved a most successful source of revenue for the benefit of the work. These bags, which were made and sold by Miss Alice Ford, have, up to date, brought in \$85 for this chapter. The supply of these bags is very low, but there are still a few that may be obtained at headquarters.

Work of Branches.

Following is the report of work turned in by branches recently and not previously reported:

Milford—225 compresses 4x5, 6 head bandages, 4 abdominal bandages, 24 scutlets, 25 compresses 4x3, 25 folded gauze strips 6x3, 25 gauze wipers, 4x3, 25 compresses 4x3, 25 small wipers, 1 gauze laparotomy pad, 29 gauze sponges, 25 3-band rolls, 19 triangular bandages.

Unadula—75 compresses 4x4, 20 triangle bandages, 10 sweaters, 15 pairs socks, 57 hospital shirts.

America Holds the Key.

The fate of Europe hangs upon America. This fact is admitted by every Allied statesman and soldier. It has not been admitted by Germany, but as the western front moves back toward Berlin no admission from Germany will be necessary. Upon American steadfastness, amplitude of preparation, and clear-headed vision depend the outcome of the war and the adjustments which will make peace satisfactory and permanent. It is impossible for America to shift the responsibility that is daily becoming more apparent. (Washington Post.)

Concerning Prayer and Faith.

Avery Goodman of Portlandville called on Oneonta friends yesterday. "We may have faith in prayer," said Avery, "but we don't always act like it. All my family prayed for rain Monday night, but I left an hen and nine chickens out in a hole over under the eaves!"

SOME RAINSTORM FIGURES

Interesting Data Concerning Moisture Falling in a Little Shower.

There was a shower in Oneonta early Tuesday morning, not very long but sharp and it lasted, and according to the record kept for the Weather bureau, it amounted to .37 of an inch. Smaller amounts fell during the day, but the total was not more than half an inch. It was a good one, a good amount, but if one will take the time to figure it out, he will find there was something in it.

Just take an acre for instance. If there were half an inch of rain it would amount to 2,600,000 cubic inches, or that is a little over 1,000,000 gallons. It would be 1,000,000 of them, and that is a lot of water. If it would be 1,000,000 pounds, which would be in round figures 500 tons. As the average garden is perhaps a quarter of an acre, it would be equivalent to 11 to 2 of water used in water a week.

But the above figures are only for an acre, or a part of one. There are 640 acres in a square mile, and the half-inch rainfall on that territory would amount to 50,000 tons. Load it into 4-foot cars of 20 tons each and it would require 1,250 cars, which tend to end would reach nine miles. Assuming that there are six square miles in the city limits, the train would be 54 miles long.

These are interesting figures, but perhaps more so when changed to terms of solar energy. All the water which fell had been raised by the action of the sun's rays to a height of at least a mile. To accomplish this work would require energy amounting to 1,145,555,390 foot-tons, or if one wants it in other denominations it would be 2,291,077,600,000 foot pounds—figures before which those used to denote the aggregate of the war debts of the world sink into insignificance.

With these figures in mind, wouldn't it be a good thing instead of grumbling about the little shower to actually consider what that little shower represents? and what the power of the sun is over the whole world as compared with that which man through water and steam and electricity has been able to harness? Sometime, perhaps, we will learn how to utilize this vast power of the sun.

FRENCH PEOPLE WORKING HARD

Declares Dutcher J. Parshall in Letter to Father, Adelbert Parshall.

Adelbert Parshall of this city is in receipt of a letter written from France by his son, Dutcher J. Parshall, a member of Company G, 107th Infantry, A. E. F., in which the latter says: "I cannot write very much, but could tell you much of interest if I were home. We are working hard every day, but don't mind it much because I am feeling fine and tough as a knox, although we don't get so very much to eat. I broke one of my front teeth yesterday eating hard tack and the worst of it is I can't get it fixed over here."

"This is a great farming country and the people work very hard. I have seen girls in the fields plowing and doing most all kinds of farm work. The cows are as good as any I have seen at fairs at home. The horses have all gone to the front except breeding mares."

"We have awful hard times making the people understand what we want. One of the fellows the other day had to crow like a rooster and cackle like a hen before he made the old lady understand that he wanted to buy some eggs. I cannot tell you much else, but you can write for you have all the time you want. I had a good time coming across. Submarines did not bother us at all, but I was a little seasick the first two days out."

Otsego in War Savings Stamp Drive.

Figures being compiled in connection with the development of the sale of War Savings Stamps show that Otsego county came through in creditable shape. The total sales and pledges amount to \$155,530, an average per capita of \$3.7. In the list it stands 40, while Monroe county is the lowest, showing only \$170,000 sold in that county, which only gives the city of Rochester and places the per capita only at 57 cents. The work was directed in Otsego through the assistance of the women, with Charles E. Westervelt of the Chamber of Commerce as director and vice chairman. George H. White of Cooperstown is the county chairman and he has saved the matter much thought and hard work.

Honor to Whom Honor.

The rush of foodstuffs to our Allies in March, April and May of 1918, relieved the danger of famine. But the obligation of feeding Western Europe will continue to fall largely upon the United States; and it is necessary to still further stimulate production, and increase conservation of food until the war ends. Mr. Hoover presided a brilliant public service by inducing the Allied food supply. Had it not been for his efforts, food prices would have risen much above their level; and his success has been due far more to earnest appeal than to any enforcement of which regulations are usually upon Mr. Hoover's faithful service, backed by public patriotism. (Library Cases.)

Cow Testing Associations to Meet.

The cow testing associations of the counties of Delaware, Chenango and Otsego will meet in the Oneonta Chamber of Commerce rooms Saturday afternoon, August 2. The meeting is called by W. L. P. Frost, instructor in Cornell college and supervisor of this branch of work. It is expected that about 50 men interested in this part of farm development will be present.

Baker's Extracts—Housewives should insist on having them; they are perfectly pure and of great strength.

COMMENTS OF THE PRESS

His Thanksgiving Dinner.

One begins to wonder where the Kaiser expects to eat his Thanksgiving dinner. (Cleveland Plain Dealer.)

They Wonder How.

Every bushel of the great wheat crop of Kansas was harvested by labor secured through the United States employment service, and the Kansans are wondering how it was done. (Buffalo Express.)

For Answer See Western Front.

If anybody in Berlin is in a hurry for an answer to the latest peace proposals as transmitted through Spain, he will find his answer on the western front between Subsons and Rheims. (New York World.)

Its Deadliest Weapon.

Let us not forget that the submarine is still sinking more ships than Air. It is still the deadliest weapon that the German possesses. (New York Tribune.)

No Harm This Time.

Dr. Macauley warns Germany not to place too great hopes on the indemnities "for our billions of war debt." He reminds them that "the billions of the war of 1870 did us great harm."

Germany will not be injured in that way this time. (Utica Observer.)

A Shorter and Easier Word.

What's the use of such words as "dehydrated" and "desiccated," when "drying" serves just as well. (Albany Journal.)

Dark Days in Kansas.

Don't criticize the editor because he don't get out a splendid paper every week. Some weeks there's no news, no news—no anything doing—that would make the paper interesting, and if the editor had brains enough to make every paper a hummer in spite of such a handicap he could make big money somewhere else and wouldn't have to edit a paper in a small town. (The Howard (Kan.) Courant.)

It Can.

It is suggested that America cannot help on the Macedonia front because she is not at war with either Bulgaria or Turkey. But a little technicality like that can be remedied, can it not? (Louisville Herald.)

Bridgeport's Latest.

Strange things happen in Bridgeport. It is reported that a ball game was recently played there between a nine made up of sailors who came from their sea base in submarines and a nine of soldiers who came from their camp in aeroplanes. Further details are lacking, but doubtless the umpire was taken away in an ambulance, as usual. (Hartford Courant.)

To Be Admitted.

It must be admitted, however, that the Kaiser has come nearer fooling all his people all the time than any other ruler. (Indianapolis News.)

Change N-O-W to W-O-N

Did you ever notice the similarity of the word "NOW" to "WON"? Separate the letters in the word "now" and you have "n-o-w." Spell it backwards and you have "w-o-n."

Isn't it plain that to be able to say "I won," I must do a thing now, and that the elements used for attaining the "won" column are largely built around the word "now"? Action or inaction now is the determining factor. The word "won" will never be written unless someone actually performs an act "now."

PERSONALS

Mr. and Mrs. T. W. Day are visiting
friends in Norwich.

Mrs. Jarvis Clarke was the guest
yesterday of her son, Ralph Clarke,
in Cooperstown.

Mrs. Albert Ackley of this city is
spending the weekend with friends
in Rutland, Vt.

Mrs. James J. Hurley and daughter,
Miss Hurley, passed the day yester-
day in Troy.

Dr. George J. Day and daughter,
Miss Day, spent the day yesterday with
friends in Albany.

Mrs. C. E. Merrill and Mrs. Eugene
Brown, both of Oneonta, were in the
city yesterday.

Mrs. Charles J. Vanhook of New
York is the guest of Mr. and Mrs. J.
B. Vanhook, 225 Main street.

J. H. Walton of Wilkes-Barre, Pa.,
is a guest at the residence of Mrs.
M. C. McDonald, 5 Lake street.

Mr. and Mrs. F. W. Smith and P. H.
Robinson, all of the city, were in
business visitors in the city yesterday.

Morris Ackley, county superintendent
of poor of Oneonta, was in
the city yesterday, on business en-
route.

Mrs. Katherine Glean of New York
city returned home yesterday after
a visit with Mrs. Mary E. Kelly, 15
Division street.

Mr. and Mrs. Walter L. Morrison
of this city leave today for New York
city, where they will spend a week
with relatives and friends.

Mr. and Mrs. W. A. Bailey of this
city left Tuesday for Corinth, where
they will be guests for a few days of
the latter's sister, Mrs. F. A. Smith.

Mrs. D. C. Daniels of Cooperstown
and Mrs. Charles Baird and children
of Herkimer were in Oneonta yester-
day to meet Mrs. Jarvis Sargent of
Delanson.

Mr. and Mrs. Van Sherman and
family of Binghamton were in One-
onta yesterday en route to Arnold
lake, where they will spend three
weeks at their camp.

B. J. Marble, who had been in Sid-
ney attending the funeral of his
brother-in-law, the late Stoughton
Horton, was in Oneonta yesterday on
his way to his home in Maryland.

Mr. and Mrs. Charles H. Rabbitt ar-
rived home last evening from their
wedding trip to take up their resi-
dence here. Mr. Rabbitt will resume
his duties at the bookstore of Henry
Saunders.

Frederick Gardner of Morris is a
guest at the home of his sister, Mrs.
Henry Rounds, 263 Chestnut street,
and his brother, O. A. Gardner, 11
Church street, and calling on old
friends in the city.

Mrs. A. J. Bush of this city left
Oneonta Tuesday morning, accom-
panying her husband on a business
trip to New York city, Connecticut,
and through New England. She will
be absent about two weeks.

Mrs. A. J. Dunham, who has been
under the doctor's care for the past
month at the home of her sister, Mrs.
Newton Dutcher, 350 Chestnut street,
returned to her home in Oneonta
Tuesday. Mrs. Dutcher went with
her for a few days stay.

D. B. Howard returned last evening
from Troy, to which city he had been
summoned by intelligence that his
brother, Frank, had suffered a broken
hip. The brother was improving when
he left him. Mrs. Howard, who ac-
companied him to Troy, will return
home today.

William J. Finley of Newark, N. J.,
is the guest of his sister, Misses
Katherine and Winifred Finley, of 21
Broad street. Mr. Finley recently
sustained a broken wrist when an auto
he was cranking back-fred and will
be unable to resume work for a
month at least.

Miss Anna Johnson of Woodstock,
Ill., who had been visiting her
brother, Louis Johnson, of North
Franklin, was in Oneonta Tuesday on
her way home. She was accom-
panied to this city by Mrs. Louis
Johnson, Mrs. Hugo Gassell and Miss
Rose Houghmout.

Mrs. Fred House of 35 Grove street
left Tuesday for Canton, N. H., to
visit her parents, Rev. and Mrs. W. L.
Phillips. Mr. Phillips, who was for
three years pastor of the Free Baptist
church in West Oneonta, is well
known in city and vicinity.

Rev. N. S. Bird, Mrs. Bird and
little son, Norman, went to Hamilton
on Tuesday, where they will spend
their vacation with Mrs. Bird's par-
ents. Mr. and Mrs. George W. Fair-
man.

Mr. Bird has been named as
supply August 4, at the Emmanuel
Baptist church, Schenectady, and for
August 11, at Africa. It is expected
to return home early in the week of
August 15.

Dr. and Mrs. Arthur S. Farnham
this morning on motor car to Warren,
N. H., and will be accompanied by
their daughter, Mrs. Paul H. Lira-
berry, and her two daughters, who
have been spending a month with
them at the family home on Warren
avenue and who are now on their
home. Mrs. G. W. Coffey of 84 E.
a sister of Dr. Farnham, will also ac-
company them on the trip. Dr. and
Mrs. Farnham will remain for a few
two weeks at Warren after which they
expect to go to their camp in Cana-
daraque lake for the balance of the
month of August.

DEATHS

Mrs. Frances Miller Peck.

Mrs. Frances Miller Peck, widow
of the late Dr. O. W. Peck and one
of the older residents, died at her
residence, 12 Watkins avenue, yester-
day, shortly after 1 o'clock, fol-
lowing a decline of several weeks.
Mrs. Peck passed the winter with
her daughter, Mrs. A. S. Hurst, of
Rutland, N. J., and returned to the
city about the middle of May.
Shortly after her return she began to
feel bad for the past three or four
weeks the decline has been pro-
gressing. The funeral services will
be held at 2 p. m. with interment
in the family plot in Riverside cem-
tery.

Her maiden name is Frances Mil-
ler and she was born in Dutchess
county in 1845, the daughter of the
late John Miller, who removed to
this county, settling first at Laurens
and later at Morris. Subsequently
they came to Oneonta and for many
years the family home was the prop-
erty now owned by M. P. Wellman, of
Upper Main street. She married for
her first husband the late Algonquin
Shen and some time after his death
she became the wife of the late Dr.
Peck. His death occurred on August
4, 1916, since which time she has con-
tinued to reside in this city, but
spending some time with the daugh-
ter, Mrs. Hurst.

Mrs. Peck was a devoted member
of the First Presbyterian church of
this city for many years and a wor-
shiper of many endearing qualities,
which secured for her the sincere
friendship of a wide circle of friends
who will learn with regret of her de-
mise. Considerate and kind, she con-
tributed much to the pleasure and
happiness of those about her who will
ever remember her many kind acts of
sympathy and cheer.

Mrs. Hurst, the daughter, is the
only near surviving relative, her only
brother, the late John Miller Jr., the
father of S. Case Miller of North
Franklin, now with the colors in
France, and Mrs. W. E. Murdoch of
East Orange, N. J., died many years
ago.

Francis Wayland Camp.

Francis Wayland Camp died short-
ly after midnight this morning at the
home of his brother, George W.
Camp, at 16 River street. Further
reference with the funeral announce-
ment will be made in the next issue.

JAY L. COLBURN DEAD

Former Resident of Milford and One-
onta Passes Away at Cooperstown.

Cooperstown, July 30.—Jay L. Col-
burn, who is well known about the
county of Otsego and who at one time
conducted a garage at Oneonta and
built one of the new blocks on Broad
street in that city, died late last night
at his home on Chestnut street. He
is survived by his wife, one son, Per-
cy, and one daughter, Mrs. Allison
Cookingham, of Schuylerville. Mr.
Colburn was about 45 years of age.

Mr. Colburn was a son of the late
Charles Colburn, long a prominent
farmer of Milford, and the son for
years conducted the large farms north
of that village on the state road. Later
he embarked in the automobile and
garage business at Oneonta, which he
conducted for several years. A few
years ago he purchased the Grasslands,
the large farm just below this village,
formerly and for many years con-
ducted by the late James F. Clarke,
which at the time was one of the
largest hop farms in this part of the
state, being known for years as Hop
City. For about a year he has resided
in this village. The funeral arrange-
ments had not been announced at this
writing.

It is immaterial! The fact that the
coffee bean is the product of nature,
and Otsego coffee is a product of the
expert coffee roaster. The real mat-
terial difference, aside from its origin,
is Otsego coffee roasting less. Yet
tastes as if it had cost infinitely more.

RESPECTED MILFORD MAN.

William N. Chase of Portlandville
Dies After Three Weeks' Illness.

Portlandville, July 29.—William N.
Chase died at his home in this village
at 12 o'clock Monday night. He was
born in the town of Laurens, March
3, 1850, the son of Naman L. and
Louisa (Dunham) Chase. He is sur-
vived by his wife, Florence Elvans
Chase, two sons, L. H. aged 19 years
and Mayne aged eight years; also by
one brother, Frank L. Chase, of
Goldfield, N. Y.

Mr. Chase had been a resident of
this place for more than 25 years,
moving from Laurens with his
mother soon after the death of his
father. He was a man who was re-
spected by a wide circle of acquaint-
ances, having for the earlier part of
his residence here conducted the mar-
ness making business in which he
was a skillful workman. Several
years since he was compelled to give
up that branch of work, the close
contact indoors being detrimental
to his health. He then engaged in
insurance and real estate business,
conducting efficiently and success-
fully in that until about three weeks
ago, since which time he had been
confined to the house most of the
time. He will be greatly missed, not
only in the home, but in the church
and in all places where he could help
toward the betterment of the com-
munity.

Sincere sympathy is expressed by
all for the family in this great sor-
row. The funeral will be held on
Thursday, August 1, with prayer at
the home at 2 p. m. and service at
2.30 in the Christian church, of which
for many years he has been an active
member. His pastor, Rev. Mr. Foss,
will officiate, with burial in Pine
Grove cemetery.

EVEN
THE
MAN

who "guards
every dollar"
would feel he
could afford
to buy our
clothes, did he
but realize that
"the best is
cheapest in the
end."

SAWTAY KITCHEN MOVIES

Cinnamon Roll

For a war-time sweet both kiddies and grown-ups
will enjoy, serve for Sunday night supper a Sawtay
cinnamon roll. The recipe calls for brown sugar,
and to take the place of butter, use the best of
vegetable fats—

Sawtay Cinnamon Roll

Sift together 2 cups flour, 3 teaspoons baking powder, 1/2 tea-
spoon salt. Rub in 2 tablespoons Sawtay with fork and mix to
a soft dough with milk.

Roll out 1/4 in. thick, spread with softened Sawtay, brown sugar
and powdered cinnamon. Roll up like jelly roll and cut in slices
1 in. thick. Place in Sawtayed pan, brush over with milk. Bake
in hot oven about 20 minutes.

Sawtay is a snow-white butter;
has no nut flavor.
